FINISH OPTIONS

SPECIFY AT ORDER · NO UPCHARGE

		
BEACH Warm white	NATURAL Sealed concrete	GRAPHITE Deep charcoal

Sealed with a matte outdoor-rated penetrating sealer. Re-seal every 2-3 seasons for best wear.

CARE & WARRANTY

BURNER WARRANTY: CONTACT WARMING TRENDS

- **Concrete vessel:** 3 year limited, against cracking from defect. Hairline surface checks are a characteristic of concrete, not a defect.
- **Burner kit:** Lifetime limited, Warming Trends · US made brass components.
- **Finish:** Re-seal every 2-3 seasons. Cover when not in use.
- **Not covered:** Freeze damage from trapped water, impact, chemical etching.

GAS & IGNITION

FUEL, SUPPLY, VALVES

FUEL	Propane (LP) or Natural Gas (NG)
LP SUPPLY	Requires a minimum 20lb propane tank. Not recommended for burners over 200K BTU
NG SUPPLY	½" stubbed line, 7" WC
CONNECTION	Flex line + key valve (included)
STANDARD IGNITION	Match-lit · key valve controlled
UPGRADE · PLATINUM / COBALT	Electronic ignition system · see add-ons
CERTIFICATION	Burner kit CSA / ANSI certified

Gas connection must be performed by a licensed installer per local code. Mangrove supplies the flex line and key valve; dealer or installer supplies hard line and shutoff as required.

ADD-ONS & ACCESSORIES

MSRP · ORDER WITH TABLE

PLATINUM IGNITION SYSTEM	+\$2,495
COBALT LOW VOLTAGE IGNITION	+\$1,990
WIND GUARD, TEMPERED GLASS	+\$320
FIRE GLASS, 20 LB (COLORS)	+\$140
LAVA ROCK, EXTRA 20 LB	+\$60
FITTED COVER	+\$275

INSTALL CHECKLIST

FOR THE TRADE INSTALLER

- Level pad, rated for vessel weight plus 200 lb.
- Confirm fuel type matches burner orifice. LP ≠ NG.
- Leak test all fittings with soap solution before first light.
- Fill plate with lava rock or fire glass only. No wood, no paper.
- Never operate under an overhang below 96".
- Cover when not in use. Drain plate before freeze.
